My dear Mr. Allen:-

I have your letter of November 1st and find that we have in the Library the book by Van Loon which you offer. I shall make some inquiries among our members and see if any of them are interested.

Some days ago I wrote you asking you to send me the Dalhousie under the rulers of India series which you offer in your former letter, and enclosed stamps for the same. I have not heard from it as yet and just enquire to know if you received my letter.

Yours very truly,

Ass't to the Curator.

Dear Mr. Allen:-

Unfortunately I have mislaid your last letter in which you quoted a numismatic item to us, but not before I had found that we did not have the book in our Library, and so am writing to you now to order it.

The Dalhousie came safely. I wish you could get me some more of the series.

Owing to the illness of our stenographer, I was obliged to respond to your card as I did. I certainly appreciate your courtesy in forwarding the catalogue.

Go ahead and order direct; I'm quite satisfied to be of the small assistance in helping you to get your books and my commission anyway would not be much. They would of course come in duty-free as they are in French or some other foreign language. You might tell Gamber that I sent you the catalog; that will show him that I am using ~~his catalog~~ it.

Dear Mr. Allen:

Yours of the 22d is at hand. I do happen to have a duplicate of Crosby, but as I can get $25 for it I can hardly offer to let you have it for less. The book by Rawlings is still in print, I think; it is published by the Frederick A. Stokes Company. It is not expensive, and is fairly satisfactory for anybody who does not want more than a smattering.

There is no good elementary book on coins, the difficulty being to discriminate between the commercial value and the historic or aesthetic. For Greek coins, a readable introduction is Macdonald's Coin Types; but that is for a mature mind with some degree of educational preparation.

Did you know that there were twins in the Noe family now?

Will you tell me the publisher and possibility of securing The Coinage of the West Indies and the Sou Marqué by Wood - I presume "your" Mr Wood, as the business-houses say.

How are your twins progressing? One of mine, at the age of ten and a half, has given up stamps for coins, and has a hundred or so; but not much knowledge yet. The above-mentioned pamphlet is therefore not for him, but for a friend who has encouraged him in his numismatic activities.

Dear Mr.Allen:

Your letter of December 4th is very welcome, especially because of the personal touch.

We can furnish a bound copy of Wood's "Coinage of the West Indies" for five dollars, but if your client wants to obtain both of the titles, they are published in Volume No. 48 of the Journal which I can furnish you at five dollars (less your 15% discount), and there are in addition several other articles which might be of interest.

The twins are doing nicely thank you. They have not yet taken to numismatics!

It is very unfortunate that there are no good introductory books on coins. Most of what has been published is of the same grade as what Kipling calls "belly wash".

Tell your friend to come up and see us whenever he goes to New York. We should be in our new building in a few weeks.

Dear Mr. Allen:

Although you may know I have bought little from your catalogues in recent years, I do want to say that I have enjoyed looking through them, which is more than can be said for most of the book catalogues through which I wade. Your interpolations and comments at the foot of the page I find delightful, and would be glad to tell you this to your face if I had the chance. But the occasion of my writing is that I want to know if you could put your hand on a copy of Ruskin's "Aratra Pentelici"? I am not particular about having a fine binding, but I should like a copy in good condition. Would you think that one would have to pay more than three dollars for such?

Another thing I meant to say was that I am glad we agree about Kipling!

Thank you very much for your appreciation of my comments; I am glad that you feel that way about Kipling. I really have found, I am happy to say, that he is by no means neglected by even the most modern of present-day readers, of any real feeling for literature. And he is still very much "collected".

How are your twins? Ours are now eleven, in the church choir, and in many other things.

Dear Mr. Allen:

Through an oversight your note of March 25th has remained unanswered. Please forgive me.

The book dated 1750 concerning which you ask, is probably worth the four dollars at which you value it, but not to us. The difficulty with numismatic books is that they are practically worthless if printed before photographic processes began to be used - that is about 1870. The personal element plays so heavy a part in any engraving that its value for scientific purposes is slight as compared with photographic accuracy.

I note you are still looking for Diidorus Sicerlus. I was in your neighborhood a week or so ago and should have tried to connect with you but at the end of a busy day I was so tired I felt there would be little of any satisfaction to you in seeing me.

I hope you are well and prospering,

Please pardon my delay in answering your very kind letter of June 27th; it came while I was in England, so Mrs Allen left it for my return.

I am sorry to say that I cannot give you better than 10% discount on any new books, and I know that many of the New York firms will do much better than that for you, so that it is not worthwhile for me to quote. It is only in the matter of out-of-print books that I can make anything and, incidentally! give you service.

By the way, if you do not have a good English agent, I should like to recommend Henry George & Barron, 16 Farringdon Avenue, London, E.C.4. I presume you know that you can do much better by importing English books duty-free than by getting them in

this country, however good the discount. When I was in London I visited Mr George and Mr Barron and found them as fine to meet as they had proved in ten years' dealing by mail.

I am trying to get you the 1910 edition of Buck, Greek Dialects. In what way is that superior to the revised edition? Did they omit some inscriptions of numismatic interest?

I am afraid that I have no chance of getting you the latest editions of Who's Who and of Who's Who in America at any great reduction.

Thank you very much for your thoughtfulness.

We are doing a lot of cleaning-up this month, so that I hope surely to find Diodorus Siculus for you.

Dear Mr. Allen:

It was a pleasure to get your letter of July 20th and I am sorry that we are not going to be able to send some business your way. It seemed as though it might be possible for you to shuffle the discounts so that you would be able to benefit without our losing anything.

I note what you say about [illegible]'s "Greek Dialects" and I think I shall take your suggestion, unless you have already involved yourself by securing a copy. If you haven't, just cancel the order and we shall try to obtain a recent edition. Thank you also for your suggestion about an English agent. It is good to know of such dependable people. We have had pretty good service from Heffers' but I am glad to know of your friends.

I hope your trip to England did you a lot of good, as I am sure must have been the case.

Very cordially yours,

WA:JG

Dear Mr Noe,

I have not succeeded in finding the 1910 edition of Buck. Greek dialects, so perhaps you can get the later one from Ginn.

Sincerely yours,

W H Allen

Dear Mr. Allen:

Your note is at hand. The three titles you list are in our library. I believe they sell for five shillings each by Spink, their publisher, - that is, unbound, of course. I should think $5.00 would be as much as you would be likely to obtain for them from a numismatist, although this does not take into account the possible duty that might have to be paid, if they were important. I hope you are well and thriving.

Very truly yours,

SH:JC

Dear Mr Noe,

Thank you for your note about the books by Hands. As I couldn't find them listed any place, they sounded very scarce. I paid 11s. for the volume. I think I'll write Spink and find out if they are in print. I hope not!

Sincerely,

W H Allen

Dear Mr Noe,

I have finally found the set of the Historical Library of Diodorus the Sicilian tr. by Booth. 2 vols. London 1814. I cannot find any price for it in catalogs, so it must be fairly rare; but would sell it for $7.50, rebacked. MacMahon asked $12.50 for it with the covers loose!

Does that seem a fair price?

Sincerely yours,

Wm H Allen
